SUMMARY

Entry-level Web Developer with hands-on experience in building web applications using ASP.NET Core MVC, React, Node.js, and MS SQL Server. Currently expanding into AI development — actively working with OpenAI (ChatGPT) API for building intelligent features, and deepening Python skills for backend and AI integration work. Passionate about clean code, scalable applications, and continuous learning.

PROFESSIONAL EXPERIENCE

Web Developer Intern

Oct 2025 – Apr 2026

A Plus Digital Solutions

- Developed and maintained web modules using ASP.NET Core, React, and MVC architecture.
- Assisted in backend development including business logic implementation.
- Worked on Shopify store development, theme customization, and product management.
- Debugged and enhanced existing web pages for better performance and usability.
- Collaborated with designers and developers to deliver client-ready solutions.

PROJECTS

Inventory Management System — APDS-IMS

- Designed and developed a full-stack Inventory Management System using React.js and Node.js.
- Built modules for product management, stock tracking, order handling, and inventory updates.
- Integrated MySQL database for efficient data storage, retrieval, and management.
- Developed RESTful APIs and implemented CRUD operations with structured backend architecture.
- Focused on responsive UI, scalable system design, and optimized application performance.

Wery—ShopifyE-commerceProject | wery.in

- Built and customized a Shopify-based e-commerce website with full store configuration.
- Managed product catalogs, themes, and store configurations.
- Ensured responsive design and smooth customer journey.
