PROFESSIONAL EXPERIENCE

Web Developer Intern | A Plus Digital Solutions

Oct 2025 - April 2026

- Developed and maintained 5+ web modules using ASP.NET Core, C#, React, and MVC architecture, improving application functionality.
- Assisted in backend development including business logic implementation, REST API design, and database integration.
- Worked on Shopify store development, theme customization, and product management for live e-commerce clients.
- Debugged and enhanced existing web pages, improving page performance and usability.
- Collaborated with designers and developers in an Agile environment to deliver client-ready solutions on schedule.

PROJECTS

Inventory Management System (APDS-IMS) | React.js | Node.js | MySQL | REST API

- Designed and developed a full-stack Inventory Management System using React.js (frontend) and Node.js (backend).
- Built 4+ core modules for product management, stock tracking, order handling, and inventory updates.
- Integrated MySQL database for efficient data storage, retrieval, and management, reducing manual tracking errors.
- Developed RESTful APIs and implemented full CRUD operations with structured, scalable backend architecture.
- Focused on responsive UI design, scalable system architecture, and optimized application performance.

Wery - Shopify E-commerce Project | wery.in

- Built and customized a Shopify-based e-commerce website for a live client.
- Managed product catalogs, themes, and store configurations.
- Ensured responsive design and smooth end-to-end customer journey.
